

Experiment 8

Date : September 30 2020

AIM

* Implementation of Built in functions in RDBMS

THEORY

MySQL has many built-in functions.

This [reference](#) contains string, numeric, date, and some advanced functions in MySQL.

Execution steps:

1. Execute the batch script for the 8th Experiment (Exp8) using either of the following commands after using the database.
 - a. `mysql> source Exp8.txt`
 - b. `mysql> \. Exp8.txt`
